PROJECTS

monday.com clone (Group)

- **GitHub Repo.**
- **Tech-Stack used :** HTML, CSS, JavaScript.
- **About:** Monday.com is a cloud-based platform that allows users to create their own applications and project management software.
- We cloned multiple different pages like landing page, about us, demo, and login and signup.
- Added login and signup functionality.
- We used import and export on navbar and footer along with dropdown menu.
- Made all the pages responsive.

AirGarage (Individual)

- **GitHub Repo.**
- **Tech-Stack used :** HTML, CSS, JavaScript.
- **About:** AirGarage is a full service parking operator. We handle all of the day-to-day logistics that go into making your parking lot or garage the most successful version of itself.
- Cloned landing page, management page and login and signup page.
- worked on login and signup functionality.
- Used CSS and JavaScript to make website more user friendly.
